5. SERVICES OFFERED

(i) DISCRETIONARY SERVICES

The Portfolio Manager will provide Discretionary Portfolio Management Services which shall be in the nature of investment management, and may include the responsibility of managing, renewing and reshuffling the portfolio, buying and selling the securities, keeping safe custody of the securities and monitoring book closures, dividend, bonus, rights etc. so that all benefits accrue to the Client's Portfolio, for an agreed fee structure and for a definite period as described, entirely at the Client's risk.

The Portfolio Manager shall have the sole and absolute discretion to invest in respect of the Client's account in any type of security as per executed Agreement and make such changes in the investments and invest some or all the Client's account in such manner and in such markets as it deems fit would benefit the Client.

(ii) STRUCTURED PRODUCTS

Under the Portfolio Management Services offered to the Client, the Portfolio Manager may design financial products or invest in any one or a combination of financial instruments such as equity, bonds, debentures, mutual fund units, fixed deposits, derivatives instruments, etc. to meet specific requirements of the Clients.

These products would be managed in accordance with the product specifications provided by the Portfolio Manager to the Client. The amount invested by the clients under the structured products may be as per the Investment Period as per the Agreement and subject

to exit load in case of early withdrawal. Every structured product would have separate term sheet and risks, these would be documented and would be agreed by the clients in writing before investment.

(iii) NON-DISCRETIONARY SERVICES

The Portfolio Manager will provide Non-discretionary Portfolio Management Services as per express prior Instructions issued by the Client from time to time, in the nature of investment consultancy/management, and may include the responsibility of managing, renewing and reshuffling the portfolio, buying and selling the securities, keeping safe custody of the securities and monitoring book closures, dividend, bonus, rights, etc. so as to ensure that all benefits accrue to the Client's Portfolio, for an agreed fee structure and for a definite described period, entirely at the Client's risk.

(iv) **ADVISORY SERVICES**

The Portfolio Manager will provide Advisory Portfolio Management Services, in terms of the SEBI (Portfolio Manager) Regulations, 1993, which shall be in the nature of investment advisory and shall include the responsibility of advising on the portfolio strategy, sectoral allocation and investment and divestment of individual securities on the client portfolio, for an agreed fee structure, entirely at the Client's risk; to all eligible category of investors who can invest in Indian market including domestic institution, NRIs, FIIs, etc.

The Portfolio Manager shall be solely acting as an advisor to the portfolio of the client and shall not be responsible for the investment / divestment of securities and / or administrative activities on the client's portfolio. The Portfolio Manager shall, provide advisory services in accordance with such guidelines and/or directives issued by the regulatory authorities and/or the Client, from time to time, in this regard.

(v) **MINIMUM INVESTMENT AMOUNT**

The first minimum lump-sum investment amount to be invested under the portfolio is Rs. 50,00,000/- (Rupees Fifty Lacs Only). It can be reduced at the discretion of the Portfolio Manager.

(vi) **POLICY FOR INVESTMENT IN ASSOCIATE / GROUP COMPANIES**

The Portfolio Manager will not invest client's money in its subsidiary or associate companies.

(vii) **INVESTMENT STRATEGIES AND OBJECTIVES**

The investment objective of the Portfolio is to generate income and long-term capital appreciation from a diversified portfolio of predominantly equity and equity-related Securities.

(viii) **INVESTMENT STRATEGIES**

Details of various discretionary portfolios are as follows:

a) Long Term Equity Strategy:

The strategy is to invest in a diversified portfolio of listed companies with sustainable business models. The strategy will be market capitalisation and benchmark agnostic with a

flexibility to invest across the market capitalization spectrum (i.e. Large, Mid and Small cap companies) and across industries / sectors.

b) India Opportunities Strategy:

The strategy is to invest in a diversified portfolio of listed companies with sustainable business models. The strategy will be market capitalisation and benchmark agnostic with a flexibility to invest across the market capitalization spectrum (i.e. Large, Mid and Small cap companies) and across industries / sectors however the bias will be to invest in Large Cap companies

Tamohara Investment Managers Private Limited may launch different strategy(s)/schemes from time to time.

6. RISK FACTORS

- (i) Securities investments are subject to market risks and there is no assurance or guarantee that the objectives of investments will be achieved.
- (ii) Past performance of the Portfolio Manager is not indicative of its future performance.
- (iii) Investors are not being offered any guaranteed or assured return/s i.e. either of Principal or appreciation on the portfolio.
- (iv) Investors may note that Portfolio Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends.
- (v) The liquidity of the Portfolio's investments is inherently restricted by trading volumes in the securities in which it invests.
- (vi) The valuation of the Portfolio's investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. There will be no prior intimation or prior indication given to the Clients when the composition / asset allocation pattern changes.
- (vii) Risk Arising from Investment Objective, Investment Strategy and Asset allocation, Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Portfolio. Different segments of the financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio to make intended securities purchases due to settlement problems could cause the Portfolio to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the portfolio due to the absence of a well-developed and liquid secondary market for debt securities would result, at time, in potential losses to the Portfolio, in case of a subsequent decline in the value of securities held in the Portfolio.
- (viii) The Portfolio Manager may, considering the overall level of risk of the portfolio, invest in lower rated/unrated securities offering higher yields and/or higher capital appreciation potential. This may increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the Agreement.

- (ix) Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The Portfolio Manager may choose to invest in unlisted securities that offer attractive yields and/or higher capital appreciation potential. This may however increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the Agreement.
- (x) While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Portfolio(s) and may lead to the investments incurring losses till the security is finally sold.
- (xi) The Portfolio Manager may, subject to authorization by the Client in writing, participate in securities lending. The Portfolio Manager may not be able to sell / lend out securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the Approved Intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.
- (xii) To the extent that the portfolio will be invested in securities denominated in foreign currencies, the India Rupee equivalent of the net assets, distributions and income may be adversely affected by fluctuations in foreign exchange rates caused by changes in regulations concerning exchange controls, political circumstances or other restrictions on investment.
- (xiii) **Interest Rate Risk:** changes in interest rates may affect valuation of the Portfolio. debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby of possible movements in the valuations of Portfolios.
- (xiv) **Liquidity or Marketability Risk:** Certain securities may become impossible to sell or not marketable due to the absence of any potential buyers. In such situations, the investment in the securities may be lost or its realization may be inordinately delayed.
- (xv) **Derivative Risk:** Derivatives are specialized instruments that require an understanding not only of the underlying interest but of derivatives itself. Schemes using derivatives / futures and Options products are affected by risks different from those associated with stock and bonds. Such products are highly leveraged instruments and their use requires a high degree of skill, diligence and expertise. Small price movements in the underlying security may have a large impact on the value of the derivatives and Futures and Options. Some of the risks relate to mispricing or the improper valuation of derivatives and the inability to correlate the positions with underlying assets, rates and indices, counter party risk. Also, the market for derivatives market is nascent in India.
- (xvi) **Credit Risk:** Credit Risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and carry lower credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

- (xvii) **Risks arising out of Non Diversification:** Diversification of portfolio across asset classes, investment themes, sectors and securities is normally construed to be less risky for investors. It is to be noted that the portfolio is likely to be more focused on a single asset class, i.e. equities which inherently can be volatile. Further the portfolio could be subject to more risk on account of its concentration of investments into a few sectors or a limited number of securities. In addition to limited/inadequate diversification across asset classes, themes and sectors, the portfolio could be prone to higher risk on account of non-diversification across capitalizations, particularly if the portfolio has a bias towards mid-cap and small-cap companies
- (xviii) **Specific Risk factors pertaining to Unlisted Securities:** In case of a Company's IPO, the investment may be subject to regulatory lock in, if any, as prescribed by SEBI from time to time. Many of such investments made by the Portfolio Manager may be illiquid, and there can be no assurance that the Portfolio Manager will be able to realize value from such investments in a timely manner. Since such investment may involve a high degree of risk, poor performance by such investments could lead to adverse effects on investor portfolios.
- (xix) **Risk associated with investments in Equity and equity related instruments:**
- Investments in equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made may be restricted by trading volumes and settlement periods. The value of the investments may be affected by interest rates, currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual securities, a specific sector or all sectors.
 - Investments in equity and equity related securities involve a degree of risk and investors should not invest unless they can afford to take the risk of losing their investment.
 - Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options.

7. CLIENT REPRESENTATION

(i) **Asset Under Management:**

The Portfolio Manager commenced its first portfolio on 6thOctober, 2015. The performance Portfolio and number of clients are as under:

Category of Clients	FY 2016-17 (%) (Till March 31st, 2017)		FY 2015-2016		Type

9. PORTFOLIO MANAGEMENT PERFORMANCE:

The portfolio manager started its first portfolio on 6th October 2015. The performance of the portfolio vis-a-vis the benchmark performance is as below:

Sr No.	Particulars	FY 2016-17 (%) (Till March 31st, 2017)	FY 2015-2016 (%)
1	Tamohara Long Term Equity Strategy*	31.76	-8.75
	BSE - S & P 500#	24.02	-5.02
	Nifty#	18.55	-4.69
2	Tamohara India Opportunities Strategy*	14.88	2.63
	BSE - S & P 200#	22.47	3.22
	Nifty#	18.55	3.01

Notes:

Time weighted - Daily valuation method is used for rate of return calculation. Portfolio valuation is done on the date of any external cash flow with daily weighted cash flows. Periodic returns are geometrically linked. Total return includes realized and unrealized gains and income. Calculations are after deduction of transaction charges. Trade date accounting is used for calculations. Accrual accounting is used for fixed income securities. Market values of fixed income securities include accrued income. Accrual accounting is used for a dividend as of ex-dividend date. Dividend & interest are assumed as reinvested for the rate of return calculation. Calculations are on pre-tax basis and after deduction of fees.

Since, this is the second year of operation, comparable figures for previous year only is available and provided above.

Tamohara Long Term Equity Strategy: Launch date October 6, 2015

Tamohara India Opportunities Strategy: Launch date March 18, 2016

10. NATURE OF EXPENSES:

The following are indicative types of costs and expenses for clients availing the Portfolio Management services. The exact basis of charge relating to each of the following services shall be annexed to the Portfolio Management Agreement or the agreements for each of the services availed by the client at the time of execution of such agreements.

(i) **Management and Performance Fees:**

Management Fees relate to the Portfolio Management Services offered to clients. The fee may be a fixed charge or a percentage of funds or linked to portfolio returns achieved or a

combination of any of these, as mutually agreed with the Client in the PMS Agreement. In the event of it being a fixed charge or a percentage of the quantum of funds managed, fees shall not exceed the rate which is maximum allowed under the Regulations thereof.

In addition to the fixed fee, with regard to the management fees linked to portfolio returns/out performance achieved, the fee structure will be mutually decided as per the client agreement. With regard to the management fees linked to portfolio returns achieved, the terms will be decided as per the client agreement. High water marking principle shall be applicable. Service tax at the applicable rate as amended from time to time will be charged separately.

(ii) **Custodian/Depository Fees/Fund accounting fees**

The charges relating to opening and operation of dematerialized accounts, fund accounting charges, NAV computation fees, custody and transfer charges for shares, bonds and units, dematerialization and other charges in connection with the operation and management of the depository accounts.

(iii) **Registrar and transfer agent fee**

Charges payable to registrars and transfer agents in connection with effecting transfer of securities and bonds including stamp charges, cost of affidavits, notary charges, postage stamp and courier charges.

(iv) **Brokerage and transaction costs**

The brokerage charges and other transaction related charges like service charge, stamp duty, transaction costs, turnover tax, exit and entry loads on the purchase and sale of shares, stocks, bonds, debt, deposits, units and other financial instruments.

(v) **Securities Lending and Borrowing charges**

The charges pertaining to the lending of securities, costs of borrowing including interest, and costs associated with transfers of securities connected with the lending and borrowing transfer operations.

(vi) **Certification and professional charges**

Charges payable for out sourced professional services like fund accounting, audit, taxation and legal services, notarizations etc. for certifications, attestations required by bankers or regulatory authorities.

(vii) **Incidental Expenses**

Charges in connection with the courier expenses, postal, telegraphic, opening and operation of bank accounts etc.

11. TAXATION

In view of the individual nature of tax consequences on the income, capital gains or otherwise, arising from investments, each client is advised to consult / his / her / its tax advisor with respect to the specific tax consequences to him/ her / it of participation in the portfolio management services. The Portfolio Manager shall not be responsible for assisting in or completing the fulfilment of the client's tax obligations. The provisions of the Income Tax Act, 1961 shall apply to the clients and portfolio managers on their individual income. Tax Deducted at Source, if applicable shall be deducted at the prescribed rate.

12. ACCOUNTING POLICIES

- (i) The company shall maintain a separate Portfolio record in the name of the client to account for the assets of the client and any receipts, income and expenses in connection therewith as provided under SEBI Regulations (Portfolio Managers Regulations 1993).
- (ii) For every Client Portfolio, the Company shall keep and maintain proper books of accounts, records and documents, for the Client, on mercantile system of accounting, so as to explain its transactions and to disclose at any point of time the financial position of the Client Portfolio and Financial Statements and in particular give a true and fair view of the state of affairs.
- (iii) The Following Accounting Policies are proposed to be followed for the purpose of maintaining books of accounts, records for the client.
 - a) Transactions for purchase or sale of investments shall be recognized as of the trade date and not as of the settlement date, so that the effect of all investments traded during a financial year is recorded and reflected in the financial statements for that same year.
 - b) Investments introduced by the client in his portfolio will be recorded at last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case the securities are not listed on NSE, the last quoted closing price on BSE Limited ('BSE') will be used) of the day prior to the date of introduction to the portfolio.
 - c) In determining the holding cost of investments and the gains or loss on sale of investments, the First-in-First-out (FIFO) method shall be followed.

- d) The cost of investments acquired or purchased shall include brokerage, stamp duty and any other charges customarily included in the broker's contract note or levied by any statute. Securities Transactions Tax incurred on buying and selling of securities shall be recognized as an expense.
- e) In respect of privately placed debt instruments, any front-end discount offered shall be reduced from the cost of the investment.
- f) The Company shall carry all investments initially at cost of acquisition on the date of purchase and at market value as at the reporting date.
- g) Investments in units of Mutual Funds shall be valued at the NAV published by the Mutual Fund Houses on the reporting date. Where no NAV is published for a particular day, the last working day's published NAV will be taken for valuation purpose.
- h) Investments in listed equity and debt instruments will be valued at the closing market prices on the National Stock Exchange ("NSE"). If the Securities are not traded on the NSE on the valuation day, the closing price of the Security on the Bombay Stock Exchange will be used for valuation of Securities. In case of the securities that are not traded on the valuation date, the last available traded price shall be used for the valuation of securities.
- i) Open positions in derivative transactions, will be marked to market at the last quoted closing price on NSE.
- j) Initial Public Offer (IPO) placements will be recorded as current assets till the date prior to the date of allotment. Post allotment and prior to the date of listing on the stock exchanges, it will be recorded as investments and valued at the allotment price.
- k) Unrealized gain / loss is the difference, between the market value fair value as at the reporting date and the historical cost of the securities.
- l) In respect of all interest-bearing investments, income shall be accrued on a daily basis as it is earned. Therefore, when such investments are purchased, interest paid for the period from the last interest due date up to the date of purchase shall not be treated as a cost of purchase but shall be debited to Interest Recoverable Account. Similarly, interest received at the time of sale for the period from the last interest due date up to the date of sale shall not be treated as an addition to sale value but shall be credited to Interest Recoverable Account.

- m) Dividend income on equities securities shall be recognized when the right to receive the dividend is established. Other corporate benefits like Bonus / split / rights entitlement are recognized as investments on the ex-bonus / ex-split / ex-rights date respectively. For investments in MF and which are not quoted on a stock exchange, dividend income and other corporate benefits shall be recognized on the date of actual receipt.”
- n) All other income and expenses shall be accounted on an accrual basis.
- o) Notwithstanding above, the Portfolio Manager and the client can adopt any specific norms or methodology for valuation of investments or accounting, if the same is mutually agreed between them.
